

**Thematic areas for the final state exam**  
**valid since the summer semester of 2016/2017**

The final state exam consists of the following parts:

1) Master's thesis defense

2) Oral examination:

Mandatory parts:   a) International relations (1 question)  
                          b) European studies (1 question)

An elective part, which a student chooses in his/her registration form for the final state exam:

c) International economic relations, International law, or International organization (1 question)

The topics listed below are thematic areas, to which concrete questions, which a student answers during the final state exam, are related. Only the thematic areas, and not the concrete questions, are publicly available.
